

DAPS-01 Dual Antenna Positioning System

Product Overview

TDK RF Solutions' DAPS-01 Dual Antenna Positioning System consists of a dual antenna mast with integrated turntable and SI-300 system interface. The DAPS-01 is specifically designed for remote positioning of two antennas, both in the horizontal and vertical planes, during EMC testing. The DAPS-01 simplifies testing by allowing the user to test continuously across two antenna bandwidths without interruption.

Remote Control The DAPS-01 is remotely controlled by the TDK RF Solutions' SI-300 system interface unit. A single independent control unit is used to handle the turn axis and the polarization sense.

Fiber Optic Link Remote control of the positioning system is achieved by use of fiber optic links, eliminating a potential interference source and distance limitations.

Custom Dimensions The dimensions of the positioning system mast and turntable are dependent on the customer's required illumination area. Dimensions are limited only by the maximum length of cable that is used.

TDK RF Solutions' DAPS-01 Dual Antenna Positioning System is designed to simplify testing by enabling remote positioning of two antennas in EMC test environments.

Features

- Compatible with TDK's SI-300 system interface
- Fiber optic interface
- Custom dimensions to meet customer requirements
- Shielded remote modules for use in high field environments
- Universal linear power supply

Applications

- Remote independent vertical and horizontal polarization

DAPS-01 Dual Antenna Positioning System

System Components

- Dual Antenna Mast with Integrated Turntable
- SI-300 System Interface
- One set of fiber optic cables

Mechanical Specifications

Dimensions:	2.16 m H x 1.65 m D (85" x 65")
Adjustable Height:	1 - 2 m (39" - 79")
Polarization:	Automatic horizontal and vertical polarization
Cross-Boom Loading:	20 kg (44 lbs.)
Mast Weight:	30 kg (67 lbs.)
Turntable Weight:	35 kg (77 lbs.)
Construction:	Non-conductive fiber- glass and ABS plastic

Electrical Specifications

Voltage:	115/230
Amp:	4/3A
Hertz:	50/60 Hz
Phase:	1 ϕ
Source Air:	Regulated to 20 psi
Flow Rate:	Regulated to 5 SCFM

Ordering Information

Product:	Dual Antenna Positioning System
Model Number:	DAPS-01
Warranty:	1 year limited
